FOREIGN NEWS

WASHINGTON, April 30.—Senator Hale today introduced a bill to provide for the acquisition by the United States of the lands and rights herein necessary for the establishment of a naval station at Pearl Harbor, Island of Oahu, and for dredging the approaches to the harbor. The tracts to be acquired under the bill contain in the aggregate about 1,880 acres, and are as follows: Mokunume or Ford Island, comprising 350 acres; peninsular tract known as Waipio, about 820 acres; a tract of 382 acres lying to the westward and fronting the harbor entrance.

The bill provides for a total appropriation of \$550,000 to carry out its provisions. The sums appropriated for dredging are not to become available until the title to the land surrounding the harbor shall have passed to the United States, and the work is to be conducted under the supervision of the Navy Department, taking this public improvement out of the hands of the engineers of the War Department.

WASHINGTON, April 20.—The House Committee on Commerce today substituted the Sherman bill for the construction of a Pacific cable in place of the bill recently passed by the Senate.

The Sherman bill had been previously reported to the House, but today's action puts it in the form of a substitute for the Senate measure. It differs from the Senate bill in providing construction by private contract under Government supervision, while the Senate bill provides for Government construction and operation.

SAN FRANCISCO, April 22.—The steamship Californian, one of the four huge vessel being constructed by the American-Hawaiian Steamship Company, is to be launched from the yards of the Union Iron Works on May 12th. The Californian has a tonnage of 3,000 and with her sister ships will ply between New York, San Francisco and Honolulu. The first to be put in commission is to leave New York within a few days.

WASHINGTON, Apr. 23.—Secretary Long has sent to the Naval Affairs Committees of the Senate and House of Representatives the adopted plans for establishing a naval rendezvous, repair plant and coaling station at Pearl Harbor, Hawaiian Islands, with an urgent recommendation pointing out the necessity for promptly instituting the improvements to utilize this key to the entire Pacific ocean.

MELBOURNE, April 23.—Plague-infected rats have been found at the Brisbane, Auckland and Melbourne wharves.

SYDNEY, N. S. W., April 23.—Two deaths from the plague are reported here today.

WASHINGTON, April 24.—Hon. Matthew S. Quay was today refused a seat in the United States Senate on the appointment of the Governor of Pennsylvania by a vote of 33 to 35. The entire time of the Senate today was devoted to debate upon the question, many of the greatest lawyers and orators in the body delivering speeches. As the day's session wore on and the hour for the final vote approached the galleries filled until they were thronged with multitudes, while other multitudes were unable to gain admission.

As the big clock opposite the President pro tem, indicated 4 o'clock there was a hush in the chamber. Frye, in the chair announced that the hour for the final vote had arrived, and the question was the pending motion of Chandler to strike out of the resolution declaring Quay not to be entitled to a seat the word "not." Senators throughout the chamber eagerly followed the roll call, for all knew the vote was close. The first sensation was caused by the failure of Pettigrew of South Dakota to answer to his name, although he was in his seat. When Vest's name was called he vote "no" in a clear voice, thus lashing the last hope of the friends of Quay, who had expected confidently that the distinguished Missourian would vote for him, long time personal friend. In perfect silence it was announced that the Senate had denied to Quay the seat which he has sought for some months past.

CHICAGO, April 25.—A special to the Record from Victoria, B. C., says:

According to news received here by Empress of China, great preparations are being made by the rebels of China, for a big revolution. A Macao correspondent says there is not the slightest doubt that the near future will see a vast army of the rebels rising in the interior. During the four months of the present year no less than 20,000 Mauser rifles and a great quantity of ammunition and other war material were taken inland from that port and colony. On March 19, a German steamer arrived there with cases of what purported to be merchandise, but which held 6000 rifles and a large stock of powder and ammunition. The captain of the steamer said these arms had been sold to the people of inland China.

LONDON, April 23.—It is reported that Sir Charles Warren is to be appointed Governor of the Free State. Nothing is known regarding Sir Redvers Buller, but there is little doubt regarding his removal, and rumor has it that Lord Kitchener will get an important independent command.

LONDON, April 24.—Winston Churchill wires from Walker room, under Monday's date, as follows: Combined operations on a great scale are now in progress and General Rundle's force is still confronting the Boer position before Dewetsdorp.

LONDON, April 25.—The reports that the siege of Wepener has been practically raised were apparently premature. The Boer attack upon Colonel Dalgely's northern position, as described from Maseru, was probably a final attempt to rush the garrison before securing a safe retreat, and as Colonel Dalgely successfully repulsed the attack, little further anxiety is felt on his account.

Lord Roberts has now spread a net with some 40,000 or more men and 150 guns, covering the whole western semicircle around Wepener, while General Hamilton has occupied the water works, practically without opposition.
